ATONEMENT WINE

The Atonement wines are a collaboration between Proof Wine Collective and winemaker Curt Schachlin of Sans Liege Wines. Using their combined experience, these friends strive to bring the best to bare in every wine. Inspired by the long and strange history of Côte de Beaune, the goal of the Atonement project is to bring an admiring perspective to what makes Pinot Noir and Chardonnay such noble and tempting varietals. While California's Central Coast acts as a stage, showing it's enormous range in appellations and styles, the wines of Atonement are respectful to the subtle charms of these beautiful agricultural artifacts.
